<p>Program Description (written by Provider)</p>	
<p>The Institute's instructional program consists of a forty (40) hour sequence of lessons. These are designed primarily for English Language Learners who need additional language development along with concept development in English Language Arts and/or Pre-Algebra/Algebra. Classes consist of small groups of students with a highly qualified teacher for one hour twice a week. Each student is given individualized instruction and materials that are specifically designed to meet the needs of the students we serve. Spanish speaking tutors and staff are available for support.</p>	
<p>Evidence of Effectiveness (written by Provider)</p>	
<p>For those students who stayed with our program between 30 and 40 hours of instruction, their classroom teachers, principals, and SES district coordinators found marked improvement in their daily schoolwork, class participation, promotion/retention rates, homework completion, and performance on state assessments. Those students with 20 hours or less of tutorial instruction demonstrated no significant growth in these same areas in schoolwork and assessments. Therefore, we will only accept students willing to participate for the entire 40 hour sequence of instruction .</p>
